With the aim to spur further growth, MMH has secured co-financing from the European Union under the European Development Regional Fund, specifically the SME Growth Grant Scheme, to invest in a new travel lift that will enable the business to offer lifting services to vessels from sea to land to sea for vessels weighing up to 700 tonnes.

The EU co-financing is an opportunity for the company to encourage it to keep up its forward looking approach and its drive to create and sustain an efficient service.
