

Environmental Policy

At MMH, it is a priority that our services and those provided by our contractors are delivered with the least impact on the environment, specifically marine water and air pollution.

It is our responsibility to protect the environment and social effects now and in the future, including the direct impact of climate change. To achieve these goals MMH ensures

- To integrate environmental concerns as part of our business strategy.
- To comply with environmental legislation.
- To comply with ISO 14001.
- To identify the impacts on the environment.
- To act to reduce the impacts on the environment.
- To assess the impacts of climate change.
- To reduce and mitigate the impacts of climate change.
- To implement and maintain practices and procedures to protect the environment.
- To continuously improve the environmental management system.
- To monitor environmental performance.
- To continuously improve waste management; reducing the waste by re-use and recycling the waste.
- To monitor and manage water and energy consumption.
- To explore ways to use alternative renewable energy sources.
- Promote and communicate environmental awareness to all stakeholders.
